

Resort Village of Chitek Lake
219 Pine Street; Box 70
Chitek Lake, SK S0J 0L0

November 25, 2025

To whom it may concern;

Re: North Shore Dock Association Limited

The Resort Village of Chitek Lake operates under the principles of municipal stewardship, meaning that Council and Administration are responsible for managing public assets, services, and infrastructure for the collective benefit of all residents and property owners. This includes ensuring transparency, accountability, and compliance with applicable municipal and provincial legislation.

Private associations, such as the North Shore Dock Association Limited, are independently operated organizations that may provide services, amenities, or activities to their members. While these associations often make valuable contributions to community life, they are not governed, funded, or managed by the municipality. Their operations, memberships (other than confirming they are in good standing), and decisions remain separate from municipal oversight.

The Resort Village values the involvement and initiatives of local associations and encourages open communication and collaboration where interests align. However, it is important to note that municipal resources and decision-making must remain focused on serving the community as a whole, in accordance with established RVCL bylaws, policies, and legislative requirements.

Sincerely,

Ashley Hardy, CAO
on behalf of the Resort Village of Chitek Lake Council
